Allowable Subject Matter

The following is an Examiner's statement of reasons for the indication of allowable subject matter:

Applicant(s) claimed invention to a molded article for use capable of being manipulated and distorted from its original shape when placed in the mouth of a child and exposed to the child's saliva but capable of regaining its original shape after distortion wherein said molded article comprises a poly(alkylene carbonate) having a glass transition temperature from about 15 C to about 40 C wherein said poly(alkylene carbonate) comprises a blend of two or more poly(alkylene carbonate) wherein the poly(alkylene carbonates) are selected from the group consisting of poly(ethylene carbonates), poly(butylen carbonate) and poly(propylene carbonate), and wherein said molded article is free from toxic plasticizers or softening aids.

The crux of the invention lies in the discovery that the particular molded polymeric material affords an article which is free of toxic plasticizers, has softness, flexibility, abrasion resistance, durability, superior coloring and weather resistance properties which would allow the article to be safely placed in the mouth of a child particularly children under the age of 3 years old. Such has neither been anticipated by nor made obvious from the prior art. The art of record demonstrates other produced in the art which do not, however, contain the advantages as mentioned and neither avoid the problems commonly associated therewith. See specification pages 2 and 3.

Any comments considered necessary by applicant must be submitted no later than the payment of the Issue Fee and, to avoid processing delays, should preferably accompany the Issue Fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

In line 3 page 1 of the specification the application has been amended as follows:

-This application is a Continuation of 10/061,776 filed 02/01/2002 now US Patent 6,680,359 which is a Continuation of 09/469,599 filed 12/21/1999 now abandoned-.
